Securing the iPad to the MultiGrip™

Install selected Mounting Option ***before*** *securing the iPad*

A

Place iPad above the MultiGrip™ (1). Gently press the iPad in place.
If power cable is needed insert it **before** placing iPad in place!

B

Place the SafeGuard Frame (2), from top. Align the holes for the tamper proof screws (5).

C

Using the tool (6), secure the SafeGuard Frame with tamper proof screws (5), in four points.

D

The iPad is now secured and ready to be used.
